APHASIA ACCESS EXTERNAL 10.31

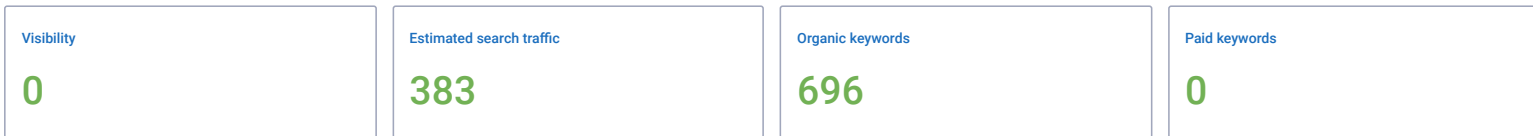

Visibility of a domain in top-20 Google. It's a relative indicator, which is calculated as a ratio of the amount and popularity of keywords a domain is shown for.

Search Traffic: Number of visitors per month from the search engine Google. This figure is an approximate one and it may differ from the real traffic. Serpstat's SE traffic calculations are based on CTRs (Click Through Rate). We take into consideration SERP positions and keyword volumes. The below graph shows a website's traffic statistics for a specific period (during the last year or since its first appearance in Serpstat database)

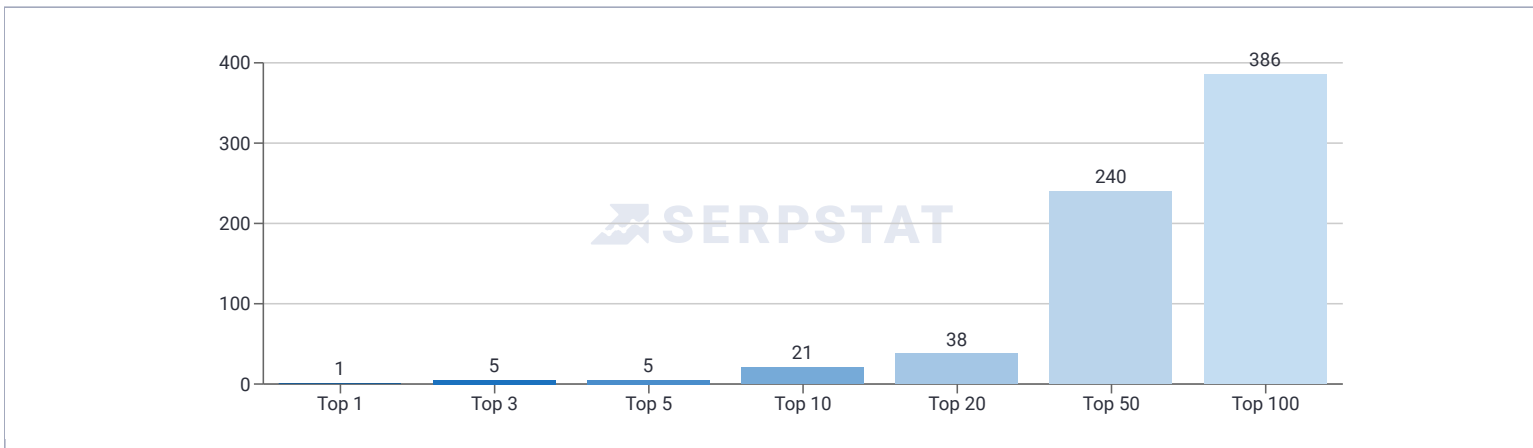

Number of organic keywords that an analyzed domain is ranking for in Google's top-100 results

The Keyword Position Distribution shows the number of keywords the domain ranks for in Google's top-1, top-3, top-5, top-10, top-20, top-50 and top-100 search results.
